Effectively measuring and managing risk is crucial to the success of financial institutions. While managers deal with risk-related issues day-to-day, directors should develop and maintain a level of knowledge that best enables them to fulfill their oversight responsibilities.

This one-day workshop is designed to enhance your understanding of the OCC’s approach to risk-based supervision and familiarity with the major risks facing the financial industry. Learn to recognize the common ways to identify, measure, monitor, and control risk.

Be ready to respond to the rapidly changing financial services industry and to fulfill your responsibilities with confidence by registering to attend this one-day workshop for $99.

**UPCOMING WORKSHOPS**
