COMMUNITY REINVESTMENT ACT PERFORMANCE EVALUATION

The Fayette County National Bank of Fayetteville
Charter Number: 8345

101 N. Court Street
Fayetteville, West Virginia 25840

Office of the Comptroller of the Currency

4419 Pheasant Ridge Road, Suite 300
Roanoke, Virginia 24014

NOTE: This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, and should not be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

Overall CRA Rating

Institution's CRA Rating: This institution is rated **Satisfactory**.

The Lending Test is rated: Satisfactory.

The major factors that support this rating include:

- The Lending Test rating is based on the Fayette County National Bank of Fayetteville's (FCNB, bank or institution) performance in the assessment area (AA) in the state of West Virginia.
- The average loan-to-deposit (LTD) ratio was reasonable based on the bank's size, financial condition, and credit needs of the AA.
- A majority of the bank's home mortgage loans were inside the AA.
- The bank exhibited a reasonable geographic distribution of the loans originated in the AA.
- The bank exhibited a reasonable distribution of loans to individuals of different income levels in the AA.
- The bank had no consumer complaints regarding its community reinvestment performance during the evaluation period.

Loan-to-Deposit Ratio

Considering the bank's size, financial condition, and credit needs of the AA, the bank's LTD ratio was reasonable.

The bank's quarterly average LTD ratio was reasonable given the institution's size, financial condition, and credit needs of the AA. The LTD ratio was calculated on a bank-wide basis. The bank's quarterly average LTD ratio for the 12 consecutive quarters was 49.47 percent. The bank's quarterly LTD ratios ranged from a quarterly low of 44.68 percent to a quarterly high of 54.48 percent. The competitor institutions reported an average LTD ratio of 65.39 percent with a high average LTD ratio of 96.79 percent, and a low average LTD ratio of 55.80 percent.

Lending in Assessment Area

A majority of the bank's loans were inside its AA.

The bank originated and purchased 77.98 percent of its total loans inside the bank's AAs during the evaluation period. This analysis was performed at the bank, rather than the AA, level. This percentage does not include extensions of credit by affiliates that may be considered under the other performance criteria.

Description of Institution

FCNB is a \$142.6 million intrastate bank as of December 31, 2024, headquartered in Fayetteville, West Virginia. The bank is a wholly owned subsidiary of FCNB Bancorp, a one-bank holding company, also located in Fayetteville, West Virginia.

FCNB offers traditional banking products and services at its main office and two branch offices located in Fayette County, West Virginia. The bank has two cash-dispensing Automated Teller Machines (ATMs); one is located at the main office in Fayetteville, West Virginia, and the other is at the Oak Hill, West Virginia branch. In addition to its branch and ATM networks, FCNB's delivery channels include internet, mobile, and telephone banking. The bank's business strategy focuses on home mortgage and small loans to businesses.

The AA consists of Fayette County, West Virginia, which has ten middle-income census tracts (CTs), and two moderate-income CTs according to the 2020 United States Census. The AA meets the requirements of the regulation and does not arbitrarily exclude low- or moderate-income (LMI) geographies.

FCNB's gross loan portfolio was \$69.8 million as of December 31, 2024, representing 49 percent of total assets. Total deposits were \$130.4 million, or 91.4 percent of total assets. Home mortgage loans represented 77.8 percent of the loan portfolio, followed by commercial loans at 16.4 percent, consumer loans at 6.3 percent, and other loans at 0.1 percent. Tier 1 capital was \$14.3 million as of that same date.

Scope of the Evaluation

Evaluation Period/Products Evaluated

This performance evaluation assessed the bank's lending performance in its AA under the CRA. The OCC evaluated FCNB using the Small Bank evaluation procedures, which includes a lending test. The lending test evaluates the bank's record of meeting the credit needs in its AA through its lending activities. The OCC reviewed the bank's primary loan product, home mortgage loans, originated during the time period of January 1, 2022, through December 31, 2024, to evaluate performance under the lending test.

Selection of Areas for Full-Scope Review

In each state where the bank has an office, one or more of AAs within that state was selected for a full-scope review. For purposes of this evaluation, bank delineated AAs located within the same metropolitan statistical area (MSA), multistate metropolitan statistical area (MMSA), or combined statistical area (CSA), if applicable are combined and evaluated as a single AA. Similarly, bank delineated non-MSA AAs within the same state are combined and evaluated as a single area. These combined AAs may be evaluated as full- or limited-scope. Refer to the "Scope" section under each State Rating for details regarding how full-scope AAs were selected. Refer to appendix A, Scope of Examination, for a list of full- and limited-scope AAs.

Ratings

The bank's overall rating is a blend of the state ratings, and where applicable, multistate ratings.

The MMSA rating and state ratings in rating areas with a single AA are based on performance in that AA. The MMSA and state ratings in rating areas with multiple AAs are based on the weighted-average conclusions in those AAs. Refer to the "Scope" section under each state and MMSA Rating section for details regarding how the areas were weighted in arriving at the respective ratings.

Discriminatory or Other Illegal Credit Practices Review

Pursuant to 12 CFR 25.28(c) (March 29, 2024) in determining a national banks or federal savings association's (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any AA by an affiliate whose loans have been considered as part of the bank's lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development, and the Consumer Financial Protection Bureau, as applicable.

The OCC has not identified that this institution (or any affiliate whose loans have been considered as part of the institution's lending performance) has engaged in discriminatory or other illegal credit practices that require consideration in this evaluation.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by or provided to the OCC before the end of the institution's next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

State Rating

State of West Virginia

CRA rating for the State of West Virginia¹: Satisfactory

The Lending Test is rated: Satisfactory

The major factors that support this rating include:

- The bank exhibited an excellent distribution of loans originated in the AA.
- The bank exhibited a reasonable distribution of loans to individuals of different income levels in the AA.

Description of Institution's Operations in West Virginia

FCNB has one AA within the state of West Virginia rating area, located within the Beckley WV MSA. FCNB's main office is located in Fayetteville, West Virginia. The bank's two full-service branch offices are located in Ansted and Oak Hill, West Virginia. The bank has not opened or closed any branches since the previous CRA evaluation.

All three offices are located in middle-income CTs in Fayette County. All full-service offices maintain reasonable hours of operation, including Saturday morning hours at two of the branches. All FCNB offices and drive-in business hours are 9:00 a.m. to 4:00 p.m., Monday through Friday. On Saturday mornings, drive-in services are offered at two of three bank offices from 9:00 a.m. to 12:00 noon. The main lobby at the Oak Hill branch office is open from 9:00 a.m. to 12:00 p.m. on Saturday, and the main lobby at the Main Office and the Ansted branch office are closed on Saturday. The two ATMs, one located at the main office in Fayetteville, West Virginia, and the other at the Oak Hill, West Virginia branch, provide customers access to their accounts when the bank offices and drive-ins are not open.

Products and services offered by FCNB are uniform at all bank office locations. FCNB offers a full range of insured deposit products consisting of savings accounts, certificates of deposit, checking accounts, and individual retirement accounts. In addition, FCNB offers a wide variety of loans including commercial, commercial real estate, commercial construction, land, various types of consumer loans, and home mortgage loans. Home mortgage loan products include purchase, refinance, home improvement, and construction of one- to four-family and multi-family dwellings at fixed and adjustable rates. Other services offered include 24-hour telephone banking services, ATM debit cards, VISA check cards, online banking, online bill pay, mobile banking, wire transfers, and safe deposit boxes. The bank's Internet website, <http://www.fcnbonline.com>, provides detailed information on products and services for both consumers and businesses.

According to the Federal Deposit Insurance Corporation's (FDIC) Summary of Deposits – Deposit Market Share Report as of June 30, 2024, there were seven institutions accepting retail deposits in the AA. FCNB held \$132.13 million in deposits, for a market share of 21.83 percent, ranking second out of seven

¹ This rating reflects performance within the state. The statewide evaluations do not reflect performance in the parts of those states contained within a MMSA.

institutions operating in the AA. The other two in the top three depository institutions, United Bank and Truist Bank, accounted for 37.90 percent of the total deposit market share in the AA.

Competition for home mortgage loans in the AA is strong. Based on the 2023 Peer Mortgage Data, the top lenders were FCNB with 14.82 percent, City National Bank of WV with 11.28 percent, and Rocket Mortgage with 8.63 percent. The two competitor institutions are significantly larger than FCNB.

Employment and Economic Factors

The AA economy has experienced modest growth that is a direct result of the travel and tourism industry which has provided service industry jobs. The unemployment rate is seasonal and tends to fluctuate throughout the year, reflecting the tourism portion of the economy. According to the Bureau of Labor Statistics, the unemployment rate in the Fayette County WV AA ranged from an annual average of 4.4 percent for 2022, 4.2 percent for 2023, and 4.3 percent for 2024. The state of West Virginia unemployment rates were somewhat below Fayette County's unemployment rates, reporting an annual average of 3.9 percent in 2022, 3.9 percent in 2023, and 4.1 percent in 2024. The national average annual unemployment rates of 3.6 percent, 3.6 percent, and 4.0 percent were below the state and county rates for the same period.

The area's top industries, by distribution of employees, are service and retail trade, and government. The largest employers in the Fayette County WV AA during the evaluation period were the Fayette County Board of Education, Mount Olive Correctional Complex, and Wal-Mart Associates, Inc.

Housing

In the performance context, examiners evaluated the disparity between the median income of families within the AA and the cost of housing. Based on the information in the Demographic table for 2022-2024, low-income families earned less than \$34,050, and moderate-income families earned at least \$34,050 and less than \$54,480, based on the FFIEC Census updated for 2024.

One method to determine housing affordability assumes a maximum affordable monthly principal and interest payment of no more than 30 percent of the applicant's income. Assuming a 30-year mortgage with a six percent interest rate, and not accounting for down payment, homeowners insurance, real estate taxes, or any additional monthly expenses, a low-income borrower could afford a \$141,981 mortgage with a payment of \$851 per month. A moderate-income borrower could afford a \$227,170 mortgage with a payment of \$1,362 per month. The median housing value in the AA was \$140,000 and \$192,500 in 2022 and 2024 reflecting a percent change of 37.50 percent from 2022 to 2024 according to Realtor.com data. This illustrates that low-income borrowers would be challenged to qualify for a mortgage loan in the AA with an estimated payment of \$1,033.

Community Contact

As part of our review, the OCC reached out to several potential community contacts for an assessment of the local market area and the community development needs that are most needed for low- and moderate-income and at-risk communities.

The OCC reviewed a community contact made by the FDIC in September 2024 for another financial institution in the Beckley WV MSA. The organization was New River Gorge Regional Development Authority. The contact identified the need for financial and credit education for persons and small business

owners. Contact indicated that risk tolerant financing for small business start-ups is a need. Many potential small business owners are not willing to risk their homes for start-up funding. Other limitations include a lack of childcare, capital access for small businesses, and funding for the organizational expenses as many grants do not provide for this. The contact indicated that overall banks are adequately meeting the area's credit needs, but indicated additional community outreach by banks would be welcome.

Scope of Evaluation in West Virginia

The bank has only one AA, Fayette County, WV that is in the Beckley WV MSA. The OCC performed a full-scope review of the AA. Please refer to the table in Appendix A: Scope of the Examination for additional information.

LENDING TEST

The bank's performance under the Lending Test in West Virginia is rated Satisfactory.

The bank originated a minimal number of small loans to businesses and farms, and multi-family lending during the evaluation period. As a result, an analysis of loans for these product types is not meaningful and has been omitted from our review. The bank did not provide optional consumer loan data for consideration under the lending test.

Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Beckley WV MSA was reasonable.

Distribution of Loans by Income Level of the Geography

The bank exhibited excellent geographic distribution of loans in the State.

Home Mortgage Loans

Refer to Table 7 in the state of West Virginia section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

The percentage of home mortgage loans in moderate-income geographies exceeded the percentage of owner-occupied housing units in those geographies and exceeded the aggregate percentage of all reporting lenders. There are no low-income CTs in the AA.

Lending Gap Analysis

The OCC evaluated the lending distribution in the AA to determine if any unexplained, conspicuous gaps existed. The examiners reviewed summary reports, maps, and analyzed FCNB's lending activity over the evaluation period to identify any gaps in the geographic distribution of loans. The OCC did not identify any unexplained, conspicuous gaps.

Distribution of Loans by Income Level of the Borrower

The bank exhibited a reasonable distribution of loans to individuals of different income levels, given the product lines offered by the bank.

Home Mortgage Loans

Refer to Table 8 in the state of West Virginia section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

The percentage of home mortgage loans to low-income borrowers was below the percentage of low-income families within the AA but exceeded the aggregate percentage of all reporting lenders.

The percentage of home mortgage loans to moderate-income borrowers was near to the percentage of moderate-income families within the AA but was below the aggregate percentage of all reporting lenders.

Responses to Complaints

FCNB did not receive any complaints about its performance in helping to meet credit needs in the state of West Virginia during this evaluation period. This had a neutral impact on the bank's CRA evaluation.

Appendix A: Scope of Examination

The following table identifies the time period covered in this evaluation, affiliate activities that were reviewed, and loan products considered. The table also reflects the MSAs and non-MSAs that received comprehensive examination review, designated by the term “full-scope,” and those that received a less comprehensive review, designated by the term “limited-scope”.

Appendix B: Summary of MMSA and State Ratings

RATINGS	
Overall Bank:	Lending Test Rating
The Fayette County National Bank of Fayetteville	Satisfactory
West Virginia	Satisfactory

Appendix C: Definitions and Common Abbreviations

The following terms and abbreviations are used in this performance evaluation, including the CRA tables. The definitions are intended to provide the reader with a general understanding of the terms, not a strict legal definition.

Affiliate: Any company that controls, is controlled by, or is under common control with another company. A company is under common control with another company if the same company directly or indirectly controls both companies. For example, a bank subsidiary is controlled by the bank and is, therefore, an affiliate.

Aggregate Lending (Aggt.): The number of loans originated and purchased by all reporting lenders (HMDA or CRA) in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/AA.

Census Tract (CT): A small, relatively permanent statistical subdivision of a county delineated by a local committee of census data users for the purpose of presenting data. Census tracts nest within counties, and their boundaries normally follow visible features, but may follow legal geography boundaries and other non-visible features in some instances, Census tracts ideally contain about 4,000 people and 1,600 housing units.

Combined Statistical Area (CSA): A geographic entity consisting of two or more adjacent Core Based Statistical Areas with employment interchange measures of at least 15. An employment interchange measure is a measure of ties between two adjacent entities. The employment interchange measure is the sum of the percentage of workers living in the smaller entity who work in the larger entity and the percentage of employment in the smaller entity that is accounted for by workers who reside in the larger entity.

Community Development (CD): Affordable housing (including multifamily rental housing) for low- or moderate-income individuals; community services targeted to low- or moderate-income individuals; activities that promote economic development by financing businesses or farms that meet Small Business Administration Development Company or Small Business Investment Company programs size eligibility standards or have gross annual revenues of \$1 million or less; or activities that revitalize or stabilize low- or moderate-income geographies, distressed or underserved nonmetropolitan middle-income geographies, or designated disaster areas.

Community Reinvestment Act (CRA): The statute that requires the OCC to evaluate a bank's record of meeting the credit needs of its entire community, including LMI areas, consistent with the safe and sound operation of the bank, and to take this record into account when evaluating certain corporate applications filed by the bank.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, other secured consumer loans, and other unsecured consumer loans.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family, which is further classified into ‘male householder’ (a family with a male householder and no wife present) or ‘female householder’ (a family with a female householder and no husband present).

Full-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower distribution, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that conduct business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants, the amount of loan requested, the disposition of the application (e.g., approved, denied, and withdrawn), the lien status of the collateral, any requests for preapproval, and loans for manufactured housing.

Home Mortgage Loans: A closed-end mortgage loan or an open-end line of credit as these terms are defined under 12 CFR 1003.2, and that is not an excluded transaction under 12 CFR 1003.3(c)(1) through (c)(10) and (c)(13).

Household: Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

Limited-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed using only quantitative factors (e.g., geographic distribution, borrower distribution, total number and dollar amount of CD loans and qualified investments, branch distribution, and CD services).

Low-Income: Individual income that is at less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/AA.

Median Family Income (MFI): The median income determined by the U.S. Census Bureau every five years and used to determine the income level category of geographies. The median is the point at which half of the families have income above, and half below, a range of incomes. Also, the median income determined by the Federal Financial Institutions Examination Council (FFIEC) annually that is used to determine the income level category of individuals. For any given area, the median is the point at which half of the families have income above, and half below, a range of incomes.

Metropolitan Division: As defined by Office of Management and Budget, a county or group of counties within a Core Based Statistical Area that contains an urbanized population of at least 2.5 million. A Metropolitan Division consists of one or more main/secondary counties that represent an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area: An area, defined by the Office of Management and Budget, as a core based statistical area associated with at least one urbanized area that has a population of at least 50,000. The Metropolitan Statistical Area comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

Multifamily: Refers to a residential structure that contains five or more units.

Multistate Metropolitan Statistical Area (MMSA): Any multistate metropolitan statistical area or multistate combined statistical area, as defined by the Office of Management and Budget.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Prior Period Investments: Investments made in a previous evaluation period that are outstanding as of the end of the evaluation period.

Qualified Investment: A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rating Area: A rated area is a state or multistate metropolitan statistical area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan statistical area, the institution will receive a rating for the multistate metropolitan statistical area.

Small Loan(s) to Business(es): A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) instructions. These loans have original amounts of \$1 million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans.

Small Loan(s) to Farm(s): A loan included in ‘loans to small farms’ as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland or are classified as loans to finance agricultural production and other loans to farmers.

Tier 1 Capital: The total of common shareholders’ equity, perpetual preferred shareholders’ equity with non-cumulative dividends, retained earnings and minority interests in the equity accounts of consolidated subsidiaries.

Unfunded Commitments: Legally binding investment commitments that are tracked and recorded by the institution's financial reporting system.

Upper-Income: Individual income that is at least 120 percent of the area median income, or a median family income that is at least 120 percent, in the case of a geography.

Appendix D: Tables of Performance Data

Content of Standardized Tables

A separate set of tables is provided for each state. All multistate metropolitan statistical areas, if applicable, are presented in one set of tables. References to the “bank” include activities of any affiliates that the bank provided for consideration (refer to appendix A: Scope of the Examination). For purposes of reviewing the Lending Test tables, the following are applicable: (1) purchased are treated as originations; and (2) “aggregate” is the percentage of the aggregate number of reportable loans originated and purchased by all HMDA or CRA-reporting lenders in the MMSA/AA. Deposit data are compiled by the FDIC and are available as of June 30th of each year. Tables without data are not included in this PE.

The following is a listing and brief description of the tables included in each set:

- Table 7. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Geography** - Compares the percentage distribution of the number of loans originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies to the percentage distribution of owner-occupied housing units throughout those geographies. The table also presents aggregate peer data for the years the data is available.
- Table 8. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Borrower** - Compares the percentage distribution of the number of loans originated and purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of families by income level in each MMSA/AA. The table also presents aggregate peer data for the years the data is available.
