

Issuance of Subordinated Debt Application

General Information and Instructions

Preparation and Use

This application may be used by national banks and federal savings associations (collectively, banks, or individually, bank or applicant). This application seeks approval from the Office of the Comptroller of the Currency (OCC) for a national bank to issue subordinated debt under 12 CFR 5.47. This form is required for a national bank that is *not* an eligible bank to issue any subordinated debt, regardless of whether it will be included in tier 2 capital. This form is also required for an eligible national bank to issue any subordinated debt, regardless of whether it will be included in tier 2 capital, if that bank will not continue to be an eligible national bank after the transaction, the OCC has previously notified the bank that prior approval is required, or prior approval is required by law.

This application seeks approval from the OCC for a federal savings association that is not an eligible federal savings association to include subordinated debt as tier 2 capital pursuant to 12 CFR 5.56.

All questions must be answered with complete and accurate information that is subject to verification. If the answer is “none,” “not applicable,” or “unknown,” so state. Answers of “unknown” should be explained.

The questions in the application are not intended to limit the applicant’s presentation nor are the questions intended to duplicate information supplied on another form or in an exhibit. For such information, a cross-reference to the information is acceptable. Any cross-reference must be made to a specific citation or location in the documents, so the information can be found easily. Supporting information for all relevant factors, setting forth the basis for the applicant’s conclusions, should accompany the notice. The regulatory agency may request additional information.

This application form collects information that the OCC will need to evaluate the reasons for, and the impact of, an issuance of subordinated debt. The OCC must consider the applicable regulatory requirements set forth above when acting on this application. For additional information regarding the regulatory requirements and any supplemental information that may be required, refer to the OCC’s guidance in the *Comptroller’s Licensing Manual*. The applicant may contact the OCC directly for specific instruction or visit the OCC’s Web site at www.occ.gov.

Notice of Publication

Generally, public notice under 12 CFR 5.8 does not apply to the issuance of subordinated debt, unless the OCC determines that the application presents a significant or novel policy, supervisory, or legal issue where a public notice is considered necessary. A public notice also may be required where an issuance of subordinated debt is accompanied by a second application

that requires a publication notice under 12 CFR 5.8. In this instance, a public notice describing the entire transaction may be necessary to ensure the public has a full understanding of the entire transaction.

If a notice is required, the applicant must publish notice of the proposed prepayment of subordinated debt in a newspaper of general circulation in the community or communities in which the applicant engages in business. The OCC will provide specific requirements for the notice of publication.

Submission

In addition to an original application and the appropriate number of signed copies, submit an electronic copy of the information in the application, especially of the business plan's financial projections, if applicable. For e-mail submissions, contact the OCC for instructions and information about secure transmission of confidential material

Confidentiality

Any applicant desiring confidential treatment of specific portions of the application must submit a request in writing with the application. The request must discuss the justification for the requested treatment. The applicant's reasons for requesting confidentiality should specifically demonstrate the harm (for example, loss of competitive position, invasion of privacy) that would result from public release of information (5 USC 552 or relevant state law). Information for which confidential treatment is requested should be (1) specifically identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "Confidential." The applicant should follow the same procedure when requesting confidential treatment for the subsequent filing of supplemental information to the application. Contact the OCC for any further questions regarding requests for confidential treatment.
