This handbook section provides information regarding the filing of applications involving: (i) a savings institution’s purchase of less than all or substantially all of the assets of another FDIC insured depository institution; (ii) a savings institution’s assumption of the liability to pay any deposit made in any other FDIC-insured depository institution; and (iii) the sale of assets and the assumption of liabilities by a savings institution in bulk and not in the ordinary course of business. These transactions include branch purchases/sales between thrifts, branch purchases/sales between a bank and a savings institution, and purchases of trust accounts from an FDIC-insured entity. 12 C.F.R. §§ 563.22(a)(2) and (c) set forth OTS regulatory requirements with respect to these types of transactions.

Transactions under § 563.22(a)(2) in which a savings institution assumes deposit liabilities from another FDIC-insured depository institution must also be reviewed by OTS under the Bank Merger Act (Section 18(c) of the Federal Deposit Insurance Act). As discussed in more detail below, there are additional filing and publication requirements for these types of transactions.

In addition, this handbook section provides information about the filing of applications involving the purchase of assets and/or assumption of liabilities by savings institutions from non-FDIC insured depository institutions. 12 C.F.R. § 563.22(c) sets forth OTS regulatory requirements with respect to these types of transactions.

Transactions involving whole entity combinations or the purchase of substantially all of the assets of an FDIC-insured depository institution are not covered by this handbook section. (See Section 230 of the handbook for information concerning those types of transactions).

**FILING REQUIREMENTS**

**Delegated Authority**

Generally, applications filed under this section may be processed by the Regional Office under delegated authority. However, certain situations may cause a filing to be nondelegated, including: (i) transactions raising significant issues of law or policy; (ii) transactions that are hostile or contested; (iii) transactions that raise significant competitive factors issues; and (iv) transactions involving CRA protests. See Delegations Section of the handbook (Section 040) for further information.

**Expedited and Standard Processing Procedures**

Applications filed under 12 C.F.R. § 563.22(a)(2) to assume liability to pay deposits in any insured depository institution are not subject to the expedited processing procedures set forth in 12 C.F.R. Part 516. These applications will be processed utilizing the procedures set forth in 12 C.F.R. §§ 516.210-516.290. For transactions filed under 563.22(a)(2), there is a 30-day automatic approval process set forth in 12 C.F.R. § 563.22(f) which applies in certain situations. Details of this provision are discussed below in the Processing Procedures and Time Frames section.
Applications filed under § 563.22(c) by a savings institution which involve the sale of assets and/or the transfer of liabilities to a depository institution, or the bulk purchase or sale of assets or liabilities not made in the ordinary course of business from both insured and noninsured depository institutions may be processed under expedited or standard treatment as set forth in 12 C.F.R. Part 516.

An institution is deemed an expedited filer if it:

1. Has a composite CAMELS rating of “1” or “2;”
2. Has a CRA rating of “Satisfactory” or better;
3. Has a Compliance rating of “1” or “2;”
4. Meets or exceeds the minimum capital requirements set forth in 12 C.F.R. Part 567; and
5. Has not been notified that it is in troubled condition.

An institution is deemed a standard filer if it:

1. Has a composite CAMELS rating of “3,” “4” or “5;”
2. Has a less than “Satisfactory” CRA rating;
3. Has a Compliance rating of “3,” “4” or “5;”
4. Has inadequate capital or fails at least one of its capital requirements;
5. Has been notified that it is in troubled condition;
6. The applicant is not a savings institution; or
7. The applicant has not received a composite CAMELS rating, a CRA rating, or a compliance rating from any federal banking regulator.

Prefiling Meeting Requirements

Prefiling meetings are not required for these filings. However, applicants are encouraged to contact the Regional Office, particularly in the event the transaction involves unique or novel issues, to determine if a prefiling meeting will expedite the application review process.

Information and Form Requirements

An institution proposing to assume deposit liabilities from another insured depository institution under 12 C.F.R. § 563.22(a)(2) must file an application with OTS. If the transaction involves two savings institutions, both institutions must receive OTS approval; however, OTS will permit a joint filing by the two institutions.
Section:  Purchase or Sale of Assets and/or Assumption or Transfer of Liabilities By a Savings Institution from FDIC-Insured And Non-FDIC Insured Depository Institutions

In addition, an institution proposing to sell assets and transfer liabilities to another insured depository institution, or to engage in a transaction involving the bulk purchase or sale of assets or liabilities not made in the ordinary course of business to either an insured or a noninsured depository institution must make the appropriate filing with OTS.

If delegated, the application should be filed with the appropriate Regional Office in accordance with 12 C.F.R. Part 516. The applicant should file the original and two copies of the application and the application filing fee with the Regional Office. The original filing, all copies, and all exhibits and other pertinent documents must be clearly marked and captioned as to the type of filing. One copy must contain original signatures on all executed documents. For applications that are not delegated to the Regional Office, an additional three copies of the application should be filed with the Applications Filing Room in OTS-Washington.

Applicants subject to the Bank Merger Act (BMA) are required to file four additional copies of the application with the Regional Director. These copies should be distributed by the Regional Office to the Department of Justice, Office of the Comptroller of the Currency, Federal Reserve Board, and Federal Deposit Insurance Corporation.

If the applicant proposes to assume deposits from another FDIC-insured depository institution under 563.22(a), the applicant should file an application on Form 1639 – Interagency Bank Merger Act Application. As indicated above, if the applicant proposes to assume deposit liabilities from another savings institution, the other savings institution must also file with OTS. Two OTS-regulated entities may make a joint filing and submit the appropriate information for each institution.

If the applicant proposes to sell assets and/or transfer liabilities to another depository institution, or to engage in the bulk purchase or sale of assets or liabilities not made in the ordinary course of business to either an insured or noninsured depository institutions under 563.22(c), it should file either an application on Form 1589 (Transfer Application) or a notice on Form 1584 (Notice Filing Pursuant to 12 C.F.R. § 563.22(c)).

For applications filed under either §§ 563.22(a)(2) or (c), the applicant should include the following information if it has not otherwise been provided in connection with the application forms:

- Sufficient information for OTS to understand the financial condition of the applicant after the transaction. If the institution will undergo major changes in its operations as a result of the transaction, OTS may require the submission of a complete business plan for the applicant institution. The applicant should contact the appropriate Regional Office to determine if a business plan will be required;
- Sufficient information for OTS to address the criteria set forth in 12 C.F.R. § 563.22(d)(1) and (2);
- If the applicant is purchasing assets and/or assuming liabilities from a non-savings institution or a non-FDIC-insured institution, the application should:
* Provide verification that the institution will continue to comply with the lending and investment limitations of Section 5(c) of HOLA; and
* Include detailed calculations that verify that the applicant institution will continue to meet the Qualified Thrift Lender (QTL) test subsequent to the transaction.

- Any employment agreements being entered into or amended in connection with the transaction; and
- The application should indicate if actions are required by any other regulatory agencies. If so, the applicant should specify the agencies, filings, and actions.

**Confidentiality**

The applicant must submit in writing, concurrently with the submission of the application, any requests to keep specific portions of the application confidential. In accordance with the Freedom of Information Act, the request should discuss the justification for the requested treatment and should specifically demonstrate the harm (e.g., to competitive position, invasion of privacy) that would result from the public release of information.

Information for which confidential treatment is requested should be: (i) specifically identified in the public portion of the application by reference to the confidential section; (ii) separately bound; and (iii) labeled “confidential.” The applicant should follow these same procedures when filing supplemental information to the application. OTS will determine whether information designated as confidential must be made available to the public under the Freedom of Information Act. OTS will advise the applicant before it makes information designated as confidential available to the public.

**Special Considerations**

For applications filed to assume the deposit liabilities of another insured depository institution, the following publication requirements and comment procedures apply. Filings under 563.22(c) are not subject to these requirements.

**Publication Requirements**

Unless OTS finds that it must act immediately to prevent the default of one of the savings institutions involved, the applicant must publish notice of its intent to assume liability to pay deposits made in an FDIC-insured depository no earlier than seven days before and no later than the date of filing of the application, in accordance with the requirements of 12 C.F.R. Part 516 Subpart A. In addition to the initial publication, the applicant must publish on a weekly basis for a 30-day period. Notice must be published in a newspaper printed in the English language and having a general circulation in the community in which the home office of the resulting savings institution is to be located. If the Regional Office determines that the primary language of a significant number of adult residents of the
community is a language other than English, the applicant may also be required to publish notice simultaneously in the appropriate language(s). A sample publication notice may be found in the Publication Forms section of the handbook (Section 020).

Comment Procedures

Any person may submit a written comment to the Regional Office supporting or opposing a transaction within the publication period. OTS will not consider any late filed comments unless the commenter demonstrates good cause for why he/she could not submit a timely comment, or OTS concludes that the comment addresses a significant regulatory concern and will assist in the disposition of the application. OTS can extend the comment period with demonstrated good cause for why a commenter was unable to submit a timely comment. The duration of an extension request is subject to the discretion of OTS on a case-by-case basis, after consideration of the unique circumstances of each extension request.

The comment should recite relevant facts, including any demographic, economic or financial data supporting the commenter's position. If the commenter opposes the application, the comment should also: 1) address at least one reason for denial based upon regulatory criteria for denial; 2) support the reason for denial with relevant facts and supporting data; and 3) address how the approval of the application is harmful to the community or the commenter. While OTS will accept and consider all comments, including those that do not meet all of the content criteria, commenters are encouraged to include all relevant information and arguments. The commenter may also request an informal meeting pursuant to 12 C.F.R. §§ 516.120 and 516.170 with his/her comment, along with a description of the issues and facts to be discussed and justification for why written submissions are insufficient to adequately address those facts or issues.

If the commenter has filed a written request for a meeting and the request contains the required information set forth in 12 C.F.R. § 516.120(b), OTS will arrange a meeting. If an informal meeting is requested, the commenter must simultaneously send a copy of the written request to the applicant. OTS will generally provide an applicant an appropriate opportunity and period of time to respond to submitted comments.

OTS will facilitate the informal meeting between the applicant, the commenter(s) and any other interested person(s). OTS has discretion to determine the format of the meeting, including telephone conferences or face-to-face meetings. OTS will inform the applicant and commenters requesting an informal meeting of its decision on a request for a meeting, or of its decision to hold an informal meeting on its own initiative. OTS may also invite any other interested persons to attend. OTS will inform the participants of the date, time, location and format for the meeting in reasonable time in advance. OTS anticipates that informal meetings will be sufficient to facilitate the resolution of issues in most cases.

If an informal meeting fails to facilitate the resolution of issues to the satisfaction of any participant in an informal meeting, OTS may proceed to conduct a formal meeting before a presiding officer upon the filing of a request. Any participant requesting a formal meeting pursuant to 12 C.F.R. §§ 516.170...
Section: Purchase or Sale of Assets and/or Assumption or Transfer of Liabilities By a Savings Institution from FDIC-Insured And Non-FDIC Insured Depository Institutions

and 516.180, should submit a request to OTS within three days after the informal meeting, and provide copies of its request to the other participants of the informal meeting. The request must describe the nature of the issues or facts to be presented and must demonstrate that material issues or facts have not been adequately addressed by the informal meeting, and that a formal meeting is necessary to develop a record sufficient to support a determination on those facts or issues. OTS will not arrange an informal meeting where a request is clearly frivolous or clearly lacking a factual basis. OTS may elect to hold a formal meeting on its own initiative if deemed necessary to assist in the disposition of the application or issues raised by the application.

OTS will issue a Notice of Formal Meeting if it decides to hold a formal meeting, and send the notice to the applicant, to any person requesting a formal meeting, and to any interested person, in its discretion, it desires to invite. Any person receiving the Notice of Formal Meeting must notify OTS within ten days of receipt of the notice of their intent to participate in the meeting. All participants in the formal meeting must provide the names of their presenters and copies of proposed exhibits to OTS, to the applicant, and to any other person designated by OTS, no later than five days before the date of the formal meeting. All presenters of documentary material must furnish copies of the material to OTS and to each other participant. OTS will arrange for a transcript of the meeting, with each participant bearing the cost of any copies of the transcript it requests for its use.

OTS anticipates that most formal meetings will follow an informal meeting. Accordingly, OTS will not grant a request for a formal meeting unless an informal meeting has occurred. However, OTS has the authority to conduct a formal meeting without holding an informal meeting if the meeting is beneficial to the review process and will facilitate a resolution of the issues raised by application.

OTS has arranged an informal or formal meeting, the processing time frames for the application are suspended until OTS determines that a sufficient record has been developed to address the issues raised in the comments.

Eligibility Examinations

If a non-OTS-regulated depository institution proposes to transfer a significant level of assets and/or liabilities to an OTS-regulated institution, OTS may conduct an eligibility examination or review of the assets and/or liabilities being transferred. For depository institutions that have recently been examined by a federal or state banking or trust regulator and received satisfactory ratings (CAMELS 1 or 2, Compliance 1 or 2, CRA Outstanding or Satisfactory, Trust 1 or 2), OTS may decide not to require an eligibility examination, unless the application raises a material issue not addressed by the report of examination. Also, when the most recent safety and soundness examination is older than six months, OTS will consider the need for an eligibility examination due to the age of the existing examination report. Absent these concerns, OTS will generally rely on the most recent report of examination as part of its review of the application.

The Regional Office should determine the need for an eligibility examination as early in the application process as possible. The eligibility examination may include on- or off-site activities. Prior to commencing the on-site work, OTS will forward a Preliminary Examination Response Kit.
(PERK) requesting more detailed information that should be made available to the examiners upon their arrival. OTS does not normally charge a fee for an eligibility examination. However, OTS may impose an hourly fee if the examiners encounter significant problems that require additional review beyond the scope of a standard eligibility examination.

Accountholder Notification

If an institution has filed an application to transfer deposit liabilities to another depository institution, the institution must notify an affected accountholder of the proposed account transfer and advise the accountholder of the option of retaining the account in the applicant institution under the following circumstances:

- The applicant will be transferring account liabilities to an institution that does not have its accounts insured by the FDIC or the National Credit Union Share Insurance Fund; or
- The applicant is a mutual savings institution and proposes to transfer account liabilities to a stock depository institution.

The notice should allow an affected accountholder at least 30 days to consider whether to retain accounts in the transferring savings institution.

Trust Operations

If the applicant is acquiring trust assets from a depository institution and has not previously been approved to exercise the appropriate type of trust powers or has not been approved to exercise trust powers in the state in which they will now be exercised, a trust powers application must be filed. However, if the applicant is a state chartered savings institution and is acquiring trust assets, it does not need to file a trust application. See Section 620 of the handbook for guidance on the processing of trust powers applications.

REVIEW GUIDELINES

Processing Procedures and Time Frames

As noted in the Delegated Authority section, certain applications are not subject to delegated authority and are processed concurrently with OTS-Washington staff. As a general matter, correspondence from OTS regarding applications that are nondelegated will be transmitted from OTS-Washington. Correspondence on delegated applications will generally come from the Regional Office.

Within five business days of receipt of the application and the application fee, the Regional Office must notify the applicant of the application's receipt. The appropriate application fee must accompany each application in order for it to be considered filed. For nondelegated applications, the
Section: Purchase or Sale of Assets and/or Assumption or Transfer of Liabilities By a Savings Institution from FDIC-Insured And Non-FDIC Insured Depository Institutions

application will not be considered filed until received by both OTS-Washington and the Regional Office.

For nondelegated applications that involve specialty areas, such as CRA, trust, or insurance issues, a copy of the application must be provided to the corresponding OTS-Washington specialist.

Within 30 calendar days of receipt of a properly submitted application, OTS shall take the following actions.

- Deem the application complete;
- Request, in writing, any additional information necessary to deem the application complete; or
- Decline to further process the application if it is deemed by OTS to be materially deficient and/or substantially incomplete.

Failure by OTS to act within 30 calendar days of receipt of the application for processing shall result in the filed application being deemed complete, commencing the period for review.

OTS must review requests for a waiver of an application requirement that certain information be supplied, in a timely manner. Unless OTS requests, in writing, additional information about the waiver request, or denies the waiver request, the waiver request shall be deemed granted.

If additional information is requested, a response must be submitted within 30 calendar days of the letter requesting such information. The applicant may, in writing, request a brief extension of the 30-calendar day period for responding to a request for additional information, prior to the expiration of the 30-calendar day time period. OTS, at its option, may grant the applicant a limited extension of time in writing. Failure to respond to a written request for additional information within 30 calendar days of such request may be deemed to constitute withdrawal of the application or may be treated as grounds for denial or disapproval of the application.

After the timely filing of additional information in response to an initial or subsequent request by OTS for additional information, OTS has 15 calendar days to review the additional information for completeness or appropriateness and take the one of the following actions.

- Request, in writing, any additional information necessary to deem the application complete;
- Deem the application complete; or
- Decline to further process the application if it is deemed by OTS to be materially deficient and/or substantially incomplete.

The 15-day review period commences when OTS receives a response that purports to respond to all questions in the information request. OTS may extend the 15-day review period for an additional 15
calendar days, if OTS requires the additional time to review the response. OTS will notify the applicant that it has extended the period before the end of the initial 15-day period.

Failure by OTS to act within 15 calendar days of receipt of the additional information shall result in the application being deemed complete, commencing the period for review.

Applications filed to assume deposits from an FDIC-insured institution under 563.22(a)(2) are deemed to be automatically approved 30 calendar days after OTS sends written notice that the application is complete, unless:

- The acquiring institution does not meet the criteria for expedited treatment under § 516.5;
- The Regional Office recommends to OTS-Washington the imposition of nonstandard conditions prior to approving the application;
- OTS suspends the applicable time frames under § 516.190;
- OTS raises objections to the transaction;
- The resulting savings institution would be one of the largest depository institutions competing in the relevant geographic market (see 12 C.F.R. §§ 563.22(f)(5)-(f)(7) for further details);
- The Herfindahl-Hirschman Index (HHI) in the relevant geographic area was more than 1800 before the transaction and the increase in the HHI used by the transaction would be 50 or more;
- In a transaction involving potential competition, OTS determines that the acquiring institution is one of three or fewer potential entrants into the relevant geographic area;
- The acquiring institution has assets of $1 billion or more and proposes to acquire assets of $1 billion or more;
- The resulting institution has a composite CRA rating of less than satisfactory, or is otherwise seriously deficient with respect to OTS nondiscrimination regulations and the deficiencies have not been resolved to the satisfaction of OTS;
- The transaction involves any supervisory or assistance agreement with OTS or FDIC;
- The transaction is part of a conversion under 12 C.F.R. Part 563b;
- The transaction raises a significant issue of law or policy; or
- The transaction is opposed by any constituent institution or contested by a competing acquiror.

Applications that do not qualify for the 30-day automatic approval are subject to the 60-calendar day review period during which time OTS will take into consideration all factors present in the application and render a decision thereon. If, upon expiration of the 60-day review period (assuming no extension has been granted) OTS has failed to act, the application is deemed approved automatically, and the applicant may thereafter consummate the transaction.
During the review period, OTS may request additional information if the information is necessary to resolve or clarify the issues presented in the application. OTS may also notify the applicant that the application is incomplete and require that the applicant submit additional information to complete the application. The review period can be extended an additional 30 calendar days if OTS determines that additional time will be required to analyze the proposed transaction. In such cases, OTS must notify an applicant prior to the expiration of the period for review. In situations in which an application presents a significant issue of law or policy, OTS may extend the applicable period for review of such application beyond the time period for review. In these cases, written notice must be provided to an applicant no later than the expiration of the time period.

Under 12 C.F.R. § 516.290, if OTS has not acted on a pending application within two calendar years after the filing date, OTS may deem the application withdrawn unless a determination is made that the applicant is actively pursuing a final determination on the application. Applications that are subject to this withdrawal provision are those that have failed to timely take action such as filing required additional information, or OTS has suspended processing of an application based on circumstances that are, in whole or in part, within the applicant’s control and have failed to take reasonable steps to resolve these circumstances.

Notices under Expedited Treatment

If OTS determines that a filing under 563.22(c) may be processed under expedited treatment, OTS must be notified of the transaction at least 30 days prior to the effective date.

Within five business days of receipt of the notice and fee, OTS must notify the applicant of the notice's receipt. The appropriate fee must accompany each notice in order for the filing to be considered filed.

The applicant may engage in the proposed activities upon the expiration of 30 calendar days after the filing date of its notice, unless OTS takes one of the following actions before expiration of that time period:

- Requests, in writing, any additional information necessary to supplement the notification;
- Notifies the applicant that the notice is subject to standard treatment as it raises a supervisory concern, raises a significant issue of law or policy, or requires significant additional information;
- Suspends the time frames pursuant to 12 C.F.R. § 516.190; or
- Disapproves of the notice.

Failure by OTS to act within 30 calendar days of receipt of the notice for processing shall result in the filed notice being accepted. If supplemental information is requested, the applicant will have 30 days
Section: Purchase or Sale of Assets and/or Assumption or Transfer of Liabilities By a Savings Institution from FDIC-Insured And Non-FDIC Insured Depository Institutions

Office of Thrift Supervision  April 2001  Applications Handbook  240.11

Section 240

to provide such information. The 30-day time frame will begin anew upon receipt of such information.

For purposes of calculating all processing time frames, OTS does not include the day of the act or event, in determining the date the time period commences. In determining the conclusion of a time period, when the last day of the time period is a Saturday, Sunday, or a Federal holiday, the last day will become the next day that is not a Saturday, Sunday, or Federal holiday.

Bank Merger Act

The Bank Merger Act (BMA) states that OTS may not approve: (i) any proposed merger transaction that would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States; or (ii) any merger transaction the effect of which, in any section of the country, may be to substantially lessen competition, tend to create a monopoly or, in any other manner, restrain trade, unless OTS finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served. Additionally, the BMA requires that OTS take into consideration the financial and managerial resources, future prospects of the existing and proposed institutions, and the convenience and needs of the community to be served. The BMA applies to all applications filed under 563.22(a)(2).

Unless it has been determined that immediate action is necessary and competitive factors reports have therefore been dispensed with, the reviewer must send a copy of the application (provided by the applicant as detailed above) to and request reports on the competitive factors involved from the Attorney General (Department of Justice); the Comptroller of the Currency; the appropriate Federal Reserve Bank; and the Federal Deposit Insurance Corporation. Generally, the reports should be furnished by the agencies within 30 calendar days of request. However, in certain emergency situations this time frame may be lessened to ten days (see § 563.22(e)(2)).

For competitively neutral transactions the initial letter sent with the application copy to the Department of Justice will indicate that the transaction is deemed to have received “interim approval” and request confirmation that the application is subject to the special processing procedure. Provided OTS’s final approval of the application is granted after passage of 30 days from the filing date, the
Section: Purchase or Sale of Assets and/or Assumption or Transfer of Liabilities By a Savings Institution from FDIC-Insured And Non-FDIC Insured Depository Institutions

transaction may be consummated immediately upon approval as opposed to waiting 15 days after approval as required under ordinary BMA transactions.

Immediately upon approval of an application, OTS must provide a letter to the Attorney General/DOJ informing it of the approval and including a copy of the approval letter/order.

Sample BMA letters for each of the above scenarios are included in the Bank Merger Act Transmittal Forms Section of the handbook (Section 030).

Regulatory Criteria

The authority of OTS to act on an application by a savings institution under this section is set forth in 12 USC §§ 1828(c)(2) and (c)(5) and 12 C.F.R. § 563.22. Additionally, if a savings institution will be purchasing assets and/or assuming deposit liabilities, OTS must consider these applications under the Community Reinvestment Act of 1977, 12 USC §§ 2901-2905, as set forth in 12 C.F.R. Part 563e.

For all applications filed under 12 C.F.R. §§ 563.22(a) and (c), OTS will consider the following criteria.

- The capital level of the applicant savings institution;
- Managerial resources of the applicant savings institution;
- The financial resources and future prospects of the applicant savings institution;
- The convenience and needs of the communities to be served;
- The conformity of the transaction to applicable law, regulation, and supervisory policies; and
- Factors relating to the fairness of and disclosure concerning the transaction.

With regard to the effect of the CRA on purchase and/or assumption applications, the applicant institution’s record in meeting the credit needs of its community, consistent with safe and sound operations, is a consideration in approval of the application.

Decision Guidelines

The statutory and regulatory requirements for determining whether OTS should approve an application by a savings institution to purchase or sell assets and/or assume or transfer liabilities from a depository institution are designed to ensure the viability and safe and sound operation of the applicant savings institution. In general, the analysis should conclude that capital is sufficient to support the operations of the institution following the transaction and that management has the necessary expertise and controls to implement the business plan of the institution. OTS should conclude that the community will be served and that the transaction will comply with applicable rules.
and regulations. In addition, the transaction should be fair to all parties concerned (savings account holders, borrowers, creditors, and stockholders of each savings association). OTS should consider the following factors in analyzing the application to determine if the transaction satisfies the applicable statutory and regulatory criteria for approval:

- Did the applicant submit the following forms and information?
  
  * OTS Form 1639, OTS Form 1584, or OTS Form 1589;
  * Copies of proposed employment contracts and evidence of regulatory compliance;
  * Pro forma financial information, including capital calculations, showing the impact of the transaction on the applicant institution and for the first year following the transaction;
  * If required by OTS, a three-year business plan for the applicant institution;
  * Additional copies of the application to be forwarded to the Department of Justice and other banking regulators for review under the Bank Merger Act;
  * If there will be any changes in market area to be served, an amended CRA plan for the resulting institution; and
  * Information to demonstrate that the application meets relevant approval standards.

- If a non-OTS regulated depository institution proposes to sell a significant level of assets and/or transfer a significant level of liabilities to an OTS-regulated institution, has the Regional Office contacted the appropriate regulator to discuss the supervisory and examination background of the selling or transferring institution? Has the Regional Office obtained and reviewed examination reports from the primary federal or state regulator, if appropriate?

- If there is not a recent examination of the institution that proposes to transfer a significant level of assets and/or liabilities to an OTS-regulated institution, has an eligibility examination or review (onsite or offsite) of those assets or liabilities been completed, if appropriate?

- Has the applicant made the appropriate notification to accountholders if required by 12 C.F.R. § 563.22(e)(5)?

- Has the applicant complied with the HOLA, and all other laws, rules, and regulations and policies of the OTS concerning purchase and assumption transactions?

- Does the application include a full description of the basic terms and conditions of the transaction?

- Does the transaction appear to be the result of arms’ length bargaining?

- Does the board of directors and senior management have the qualifications and experience necessary to operate the applicant institution in a safe and sound manner?
Are any proposed increases in compensation reasonable? Note that an increase in excess of the greater of 15 percent or $10,000 gives rise to a presumption of unreasonableness and sale of control. Sufficient information should be submitted to rebut this presumption (for example, increased responsibilities and duties of management).

Will an advisory board be elected? If so, members should not be elected for a term greater than 1 year.

Does the application describe and justify the duties and responsibilities and any compensation to be paid to the advisory board?

Are advisory board fees reasonable? Note that advisory board fees in excess of 115 percent of directors’ fees paid by the selling savings institution prior to the transaction will give rise to a presumption of unreasonableness and sale of control. Sufficient information should be provided to rebut this presumption (for example, increased responsibilities and duties of the directors).

Do proposed employment agreements comply with the requirements of 12 C.F.R. § 563.39 and RB 27-a?

Will the balance sheet and business strategy of the applicant institution comply with the lending and investment limitations of Section 5(c) of HOLA and 12 C.F.R. Part 560 following the transaction?

Has the applicant provided financial projections that are reasonable and well supported?

Is the transaction consistent with the applicant’s business objectives?

Has the applicant provided for appropriate management and policies for any significant new activities or risks to be assumed?

How does the transaction change the institution’s risk profile?

Will future operations be profitable?

Does the application provide information concerning the accounting and tax treatment of the transaction?

Is the applicant’s proposed operation of any additional branches consistent with OTS’s branching policy statement (12 C.F.R. § 556.5) and Section 5(r) of HOLA?

Are the fees to be paid for any professional services in connection with the transaction fair?

Do the financial projections demonstrate compliance with OTS capital requirements?

Is capital adequate based on the proposed business philosophy of the applicant institution?

Does the applicant indicate that QTL compliance will be maintained?

Does the applicant institution have a satisfactory history of compliance with the CRA and a reasonable plan to meet its obligations under the CRA in the future?
Section: Purchase or Sale of Assets and/or Assumption or Transfer of Liabilities By a Savings Institution from FDIC-Insured And Non-FDIC Insured Depository Institutions

If the transaction will result in any lessening of competition in any section of the country, are the anticompetitive effects clearly outweighed by the probable effect of the transaction in meeting the convenience and needs of the communities to be served?

Has OTS received responses from the Department of Justice and the banking regulators regarding the competitive factors involved in the transaction?

Will the applicant savings institution meet the identified convenience and needs in the target market, including the low- and moderate-income needs after the transaction is completed?

Will the applicant institution continue to provide credit for housing consistent with safe and sound banking principles?

Conditions

Generally, the following conditions will be imposed on any approval of an application for a savings institution to purchase or sale assets and/or assume or transfer liabilities from a depository institution:

- The Savings Bank must receive all required regulatory approvals for the proposed transaction and submit copies of all such approvals to the Regional Director prior to consummation of the proposed transaction;

- The proposed transaction must be consummated no earlier than 15 calendar days (if subject to BMA) and no later than 120 calendar days from the date of the approval letter;

- On the business day prior to the date of consummation of the proposed transaction, the chief financial officer of the Savings Bank must certify in writing to the Regional Director that no material adverse events or material adverse changes have occurred with respect to the financial condition or operation of the Savings Bank as disclosed in the application;

- The Savings Bank must advise the Regional Director in writing within five (5) calendar days after the effective date of the proposed transaction: (a) of the effective date of the proposed transaction and (b) that the transaction was consummated in accordance with all applicable laws and regulations, the application, and the approval letter; and

- The Savings Bank shall advise each accountholder whose withdrawable accounts would increase above $100,000 as a result of the transaction of the effect on their insurance coverage no later than thirty (30) days after the effective date.

OTS may impose certain nonstandard conditions in connection with a purchase or assumption transaction. Any nonstandard conditions imposed will be based on the individual circumstances surrounding the institution and the transaction itself. In circumstances where nonstandard conditions will be imposed, they must be supported with justification in the recommendation memorandum related to approval of the application. Any nonstandard conditions incorporated into the approval letter must be summarized in the National Applications Tracking System record for the application.
RECORDKEEPING REQUIREMENTS

OTS is required to consolidate all correspondence related to the processing of the notice or application into a file copy to be sent to a central file. Both the Regional Office and OTS-Washington will maintain a separate file copy for nondelegated filings. The file copy must include a copy of the original filing including all exhibits, all amendments, all internal and external correspondence between interested parties, all documentation associated with the review and analysis of the filing, and all decision, recommendation memorandum, and compliance material. The file copy must be organized and separated into public and confidential material, and clearly identified as such. The public and confidential sections must be arranged in chronological order.

MONITORING AND CONTROL

The Regional Office will monitor compliance with any conditions imposed in connection with an application’s approval. The applicant must submit evidence of satisfaction of the conditions included in the approval order or letter to the Regional Office within the stated time frames.

The Regional Office’s applications staff should notify the appropriate staff responsible for the supervision and examination of the institution regarding the action taken on an application. In addition, the Regional applications staff should provide the appropriate staff with copies of the approval order or letter. If an application is approved, the first examination of the institution following the approval should include a review of compliance with all conditions of approval and any changes in operations as a result of the transaction.

A review of the application file should be made after all compliance material is received to ensure that the file is complete. Any deficiencies should be corrected before the file is sent to storage.

OTS-Washington may conduct a post audit review of the application in the Regional Office, including a review of the documentation maintained in the application file.
