*Thrift Bulletin 48-6a*

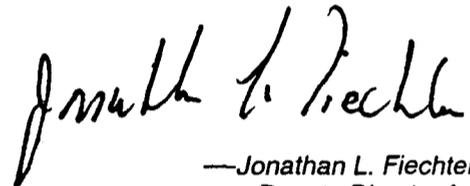

As authorized in 12 CFR Part 502.1 (e), the Office of Thrift Supervision (OTS) has opted to change its assessment billing cycle from a quarterly to a semiannual schedule beginning with the January 1992 assessment. Assessments thereafter will be due

every January 31 and July 31, representing the six month period beginning 30 days before such payment date. The January assessment will be based on an institution's consolidated assets as reported in the preceding September Thrift Financial Report and the July assessment will be based on the preceding March Thrift Financial Report.

Accordingly, attached is the revised General and Premium Assessment

Fee Schedule for the first semiannual billing. These rates supersede those previously published by OTS in TB 48-5. It should be noted that the OTS assessment rates have been doubled to reflect a comparable rate for a six month period versus a three month period and have been increased by an additional five percent from those published in TB 48-5.
