Attached is a final rule that will implement § 916 of FIRREA that requires the development of a set of uniform administrative hearing rules for the five federal financial regulatory agencies. The rule sets forth the rules of practice and procedure for those formal enforcement actions that are required by statute to be determined on the record after an opportunity for an administrative hearing and generally replace the procedures governing formal adjudications currently found in 12 CFR Part 509.

The final rule is published in the Federal Register, Vol. 56, No. 155, pp. 38302-38318.
