RESCINDED

OCC 2004-54

**Subject: Notice of Comptroller of the Currency
Fees for Year 2005
Date: December 1, 2004**

**To: Chief Executive Officers of All National
Banks, Federal Branches and Agencies,
Department and Division Heads, and All
Examining Personnel**

Description: Year 2005 Fee Structure

Any attachments to this document are rescinded only as they relate to national banks and federal savings associations.

Reference: 12 CFR 8.2 and 8.6

Assessments are due January 31, and July 31, 2005, based on call report information as of December 31, 2004, and June 30, 2005, respectively. Assessments are paid in advance. For example, the assessment due January 31, 2005, covers the period January 1 through June 30, 2005.

2005 Assessment Schedule

Effective January 1, 2005:

- The marginal rates of the OCC's general assessment schedule continue to be indexed to reflect inflation, as measured by the Gross Domestic Product Implicit Price Deflator (GDIPIPD) for the previous June-to-June period. The GDIPIPD adjustment is 2.2 percent for 2005. As was the case in 2002, 2003, and 2004, the indexation adjustment will apply only to the first \$20 billion in a national bank's assets.
- Fees assessed independent trust banks and independent credit card banks have been adjusted for inflation as well. The attached schedules reflect these changes.
- As was the case in 2003 and 2004, the OCC will charge interest on all payments received after the due date. The interest rate charged will be the United States Treasury Department's current value of funds rate that is published quarterly in the *Federal Register*.
- National banks that are under the OCC's jurisdiction on December 31, 2004, or June 30, 2005, are subject to the full semi-annual assessment based on that call report date. For example, an institution that exits the national banking system on December 31, 2004, or June 30, 2005, will be subject to the full semi-annual assessment that is due on January 31, 2005, or July 31, 2005. Institutions must leave the national banking system prior to the call report date to avoid paying the full semi-annual assessment.

The OCC's assessment schedule also continues to include a surcharge for banks that require increased supervisory resources. The surcharge ensures that fees reflect the increased cost of supervision that applies to those national banks and federal branches and agencies of foreign banks rated 3, 4, or 5 under the uniform financial institution rating system (UFIRS) or the risk management, operational controls, compliance and asset quality (ROCA) rating system as of the relevant call date (*i.e.*, December 31, 2004, or June 30, 2005). The surcharge is to be applied to all components of an institution's assessment, including book assets, assets under management (for independent trust banks), and receivables attributable (for independent credit card banks). National banks and federal branches and agencies of foreign banks that are subject to the surcharge determine their surcharge by multiplying the sum of the

assessment based on the institution's book assets up to \$20 billion, the independent trust bank assessment (if applicable), and the independent credit card assessment (if applicable) by 50 percent for 3-rated institutions and 100 percent for 4- and 5-rated institutions.

The OCC will continue to reduce the assessment of nonlead national banks by 12 percent. A nonlead bank for this purpose is a national bank and federal branch or agency that is not the largest national bank, based on total assets, controlled by a company owning two or more national banks. Nonlead national banks within any company should multiply their calculated general assessment by 0.88 to recognize the 12 percent discount. The 12 percent discount does not apply to the independent trust bank assessment or the independent credit card bank assessment, given that independent trust banks and independent credit card banks are not affiliated with full-service national banks.

Each national bank and federal branch or agency pays the general assessment fee. Independent trust banks pay the general assessment fee and the independent trust bank assessment. Independent credit card banks pay the general assessment fee and the independent credit card bank assessment. Assessments should be calculated using these schedules and then adjusted for the nonlead discount and/or condition surcharge.

LICENSING FEES – Endnotes

¹ Expedited processing is available to eligible banks as defined in 12 CFR 5 and 28. Applicants may request a reduced fee for transactions requiring multiple filings, steps, or banks. Applicants requesting reduced fees should consult with the licensing manager in the appropriate district office in advance of filing. Generally, fee concessions are not granted unless savings in the OCC’s processing costs are demonstrated.

² These fees are appropriate for charter applications submitted by a group of individuals or a sponsor that is not a bank holding company for purposes of the Bank Holding Company Act; or a sponsor that has received Federal Reserve Board approval as a bank holding company but has been in operation for less than three years prior to filing the application to organize a new national bank.

³ Includes banks that will operate predominantly on the Internet, but also have limited branch or nonbranch physical facilities, such as kiosks or ATMs (limited facility bank), as well as banks that will operate solely via the Internet (Internet-only bank).

⁴ The OCC does not require a licensing filing fee for applications for new national bank charters or branches to be located in a low- or moderate-income area as defined in 12 CFR 25.12(l), (n)(1), and (n)(2), and where no other depository institution operates a branch or main office.

⁵ The stated fees are for a transaction involving two banks. If more than two *affiliated* banks are involved, and, if the following criteria are met, the OCC may charge a fee of \$100 for each additional intrastate charter and \$200 for each additional interstate charter involved in the transaction. *Criteria:* a) the acquiring bank is eligible, b) current national bank assets exceed nonnational bank assets, and c) the combination presents no expected complications. Otherwise, additional fees will be required (equal to no more than one-half the stated fee times the number of banks), based on the marginal increases in the OCC’s processing costs attributable to the additional banks.

An application that does not qualify for expedited review because it involves either an interim bank, a trust bank, or a credit card bank, is nonetheless charged the expedited-business reorganization fee if (1) the interim bank is merging with an eligible bank or (2) the trust bank or credit card bank is a subsidiary of a bank holding company of which its lead bank is an eligible national bank or is a subsidiary of an eligible national bank. However, the application is not eligible for expedited review.

The “Expedited – Business Reorganization” fee is charged for branch purchase and assumption transactions between affiliated institutions. Purchase and assumption transactions between unaffiliated banks are charged either the “Standard” or the “Expedited-Streamlined Application” fee, as appropriate.

The definition of business reorganization is found at 12 CFR 5.33(d)(2). The definition of a streamlined application is found at 12 CFR 5.33(j)(1).

⁶ Transactions conducted pursuant to 12 USC 215a-3.

⁷ Transactions conducted pursuant to 12 USC 215a-2.

⁸ The fee listed is for one branch. Multiple branches filed together and published on the same date may be charged \$100 per additional bank branch. The OCC does not require a licensing filing fee for applications for branches to be located on an Indian reservation.

⁹ These fees apply only to operating subsidiary filings by national banks, federal branches, or federal agencies and after-the-fact filings for noncontrolling investments under 12 CFR 5.33(e).

¹⁰ The fee for a change-in-bank-control filing should be borne by the party(ies) acquiring the shares. The fee for increases by an existing officer or director is available for persons who have been associated with the bank for more than three years.

¹¹ A national bank generally need only submit a notice to increase its permanent capital. However, prior OCC approval is required to increase permanent capital if a bank is required by the OCC to obtain prior approval; it plans to sell common or preferred stock for consideration other than cash; or it will receive a material noncash contribution to capital surplus.

¹² Includes distributions from surplus or surplus accounts (unless to pay dividends from surplus that was transferred from prior period earnings); acquisitions of treasury stock; or retirement of outstanding shares. The expedited fee applies to an application to conduct a reverse stock split. No fee is required for applications to pay a dividend pursuant to 12 USC 60(b) unless it is a dividend-in-kind.

¹³ Prior approval is required if the OCC has notified the bank that it must receive prior approval or the bank will become inadequately capitalized after the transaction. Otherwise, a bank may issue subordinated debt without prior OCC approval. However, if the bank would like the subordinated debt to count as Tier 2 capital, it must provide the OCC with notification after the debt has been issued. No fee is charged for this request. No approval is required for eligible banks to repay subordinated debt.

¹⁴ The fee for a stock appraisal must be borne by the bank which, in the case of a business combination, is the surviving bank.

¹⁵ After-the-fact merger applications could be subject to a fee. If a fee is required, it will be determined based on the specific circumstances surrounding the transaction.

¹⁶ Interstate relocations are processed under standard procedures.

¹⁷ There is no fee for a downgrade in the status of the federal branch or agency.
