associations, and federal branches and agencies of foreign banks that require increased supervisory resources. The surcharge ensures that fees reflect the increased cost of supervision that applies to those national banks, federal savings associations, and federal branches and agencies of foreign banks rated 3, 4, or 5 under the uniform financial institution rating system; or under the risk management, operational controls, compliance, and asset quality rating system as of the relevant call date (that is, December 31, 2012; or June 30, 2013). The surcharge is to be applied to all components of an institution’s assessment, including book assets, assets under management (for independent trust banks), and receivables attributable (for independent credit card banks). National banks, federal savings associations, and federal branches and agencies of foreign banks subject to the surcharge calculate the surcharge by multiplying the sum of the general assessment (based on the institution’s book assets up to $20 billion) plus the independent trust bank assessment or the independent credit card bank assessment by 50 percent for 3-rated institutions and 100 percent for 4- and 5-rated institutions.

The OCC will continue to reduce the assessment of nonlead national banks, federal savings associations, and federal branches and agencies of foreign banks by 12 percent. A nonlead institution, for this purpose, is a national bank, federal savings association, or federal branch or agency of a foreign bank that is not the largest national bank, federal savings association, or federal branch or agency of a foreign bank, based on total assets, controlled by a company owning two or more national banks, federal savings associations, or federal branches or agencies of foreign banks. Nonlead national banks, federal savings associations, and federal branches and agencies of foreign banks within any company should multiply their calculated general assessment by 88 percent to recognize the nonlead discount. The 12 percent discount does not apply to the independent trust bank assessment or the independent credit card bank assessment, given that independent trust banks and independent credit card banks, by definition, are not affiliated with full-service national banks, federal savings associations, or federal branches or agencies of foreign banks.

Each national bank, federal savings association, and federal branch and agency of foreign banks pays the general assessment fee. Independent trust banks pay the general assessment fee and the independent trust bank assessment. Independent credit card banks pay the general assessment fee and the independent credit card bank assessment. Assessments will be calculated using the schedules below and then adjusted for the nonlead discount or condition surcharge.
