The OCC would like to invite representatives from your banking supervisory organization to attend any of the schools scheduled for 2020. We are limiting the number of participants for each session to 30, as the courses are designed to be interactive and to encourage discussion and the exchange of ideas. We invite you to nominate up to two (2) individuals from your respective banking agency per session, as this will encourage diversity among the students and provide insight on varied supervisory perspectives. We will waitlist additional nominees and will make available on a case by case basis additional slots depending on availability. The courses are instructed in English only; therefore, both verbal and written communication skills in English are required. It is also important to stress that all available slots will be filled on a first come first serve basis.

**Cost**

There is an enrollment fee of $200.00 per participant for attending a school. In addition, all participants are responsible for their own travel and hotel reservations.
